DETAILED ACTION

- 1. Prosecution on the merits of this application is reopened on claims 1, 4, 6, 9 and 19 are considered unpatentable for the reasons indicated below:
- 2. Applicant is advised that the Notice of Allowance mailed 0829/03 is vacated. If the issue fee has already been paid, applicant may request a refund or request that the fee be credited to a deposit account. However, applicant may wait until the application is either found allowable or held abandoned. If allowed, upon receipt of a new Notice of Allowance, applicant may request that the previously submitted issue fee be applied. If abandoned, applicant may request refund or credit to a specified Deposit Account.

Claim Objections

- 3. Claim 1 is objected to because of the following informalities: in line 13, should "fist" read "first"? Appropriate correction is required.
- 4. Claim 12 is objected to because of the following informalities: in line 12, should "fist" read "first"? Appropriate correction is required.
- 5. Claim 15 is objected to because of the following informalities: in line 9 should "send" read "second"? Appropriate correction is required.
- 6. Claim 20 is objected to because of the following informalities: in line 18 should "send" read "second"? In line 11 should "fist" read "first"? Appropriate correction is required.
- 7. Claim 21 is objected to because of the following informalities: in line 9 should "fist" read "first"? Appropriate correction is required.

Art Unit: 3765

Specification

8. The disclosure is objected to because of the following informalities: the application numbers in the specification should be updated where the application has issued as a patent, eg. Page 8, line 11, 09/407836 is now 6,478,814.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

9. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 9 and 19 contains the trademark/trade name PEBAX and ARNITEL.

Where a trademark or trade name is used in a claim as a limitation to identify or describe a particular material or product, the claim does not comply with the requirements of 35 U.S.C. 112, second paragraph. See *Ex parte Simpson*, 218

USPQ 1020 (Bd. App. 1982). The claim scope is uncertain since the trademark or trade name cannot be used properly to identify any particular material or product. A trademark or trade name is used to identify a source of goods, and not the goods themselves. Thus, a trademark or trade name does not identify or describe the goods associated with the trademark or trade name. In the present case, the trademark/trade name is used to identify/describe compositions of material and, accordingly, the identification/description is indefinite.

Claim Rejections - 35 USC § 102

10. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Art Unit: 3765

4 7 .

A person shall be entitled to a patent unless -

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

Claims 1, 4 and 6 are rejected under 35 U.S.C. 102(e) as being anticipated by Fischell et al. (US 6,221,043).

Fishcell et al. provides a stent delivery system comprising a catheter having a catheter shaft and a medical balloon mounted thereto (figure 6, identifiers 60, 62, 63, 64, 65: column 7, lines 64-67 through column 8, lines 1-21). The medical balloon having a non-inflated state and being inflatable to an inflated state (column 2, lines 26-29), a stent mounting region and a stent disposed about at least a portion of the stent mounting region (figure 6, identifier 60). The stent mounting region having a middle portion, a first end portion adjacent to the middle portion and a second end portion adjacent to the middle portion (figure 6, identifiers 66, 67 and 65). A first cone being adjacent to the first end portion and having a first waist engaged to a first portion of the catheter shaft and the first end diameter being greater than the first waist diameter (figure 6, identifiers 64 and 68). A second cone being adjacent to the second end portion and having a second waist engaged to a second portion of the catheter shaft and the second end diameter being greater than the second waist diameter (figure 6, identifiers 64 and 68: column 8, lines 1-10). When the medical balloon is expanded the middle portion pushes against the stent before the first end portion and before the second send portion (column 7, lines 45-63).

Claim Rejections - 35 USC § 103

11. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

- (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 12. Claim 9 is rejected under 35 U.S.C. 103(a) as being unpatentable over Fischell et al.

Fischell et al. provides a stent delivery system as described above in claim 1.

However, Fishcell et al. fails to teach the balloon being manufactured from polyesters, polyethylene terephtalate, polybutylene terephathalate, etc.

It would have been obvious to have provided the balloon manufactured from a variety of suitable polymer materials, including polyethylene terephtalate, polyesters, polyubutylene terephatahalate, etc., since all are polymers that are suitable for medical balloon devices and supported in Applicants specification (page 5, lines 6-14).

Response to Arguments

13. Applicant's arguments filed 03/11/03 have been fully considered but they are not persuasive.

Allowable Subject Matter

14. As allowable subject matter has been indicated (claims 12-18, 20 and 21), applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

Art Unit: 3765

15. Claims 3, 5, 7 and 8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

16. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alissa L. Hoey whose telephone number is (703) 308-6094. The examiner can normally be reached on M-F (8:00-5:30)Second Friday Off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John Calvert can be reached on (703) 305-1025. The fax phone numbers for the organization where this application or proceeding is assigned are (703) 308-0758 for regular communications and (703) 308-0758 for After Final communications.
